

IN THE CLAIMS

Please add the following new claims 21-30:

Q2 21. A method of treating a viral infection in a subject, wherein the subject is infected with a DNA virus, the method comprising treating the subject with a therapeutically effective amount of a sulfur-containing (H^+/K^+) ATPase inhibitor.

22. The method of claim 21 wherein the inhibitor contains a divalent sulfur bridge.

23. The method of claim 21 wherein the inhibitor contains a sulfoxide.

24. The method of claim 21 wherein the subject is infected with a herpetoviridae virus.

25. The method of claim 24 wherein the herpetoviridae virus is selected from the group of viruses consisting of herpes simplex viruses, cytomegalovirus, herpes varicellazoster, Epstein-Barr, HHV6, HHV7, pseudorabies, and rhinotracheitis.

26. The method of claim 5 wherein the compound contains a divalent sulfur bridge.

27. The method of claim 5 wherein the compound contains a sulfoxide.

28. The method of claim 5 wherein the subject is infected with a DNA virus.

~~od of claim 5 wh
dae virus.
od of claim 29 w
he group of viru
ytomegalovirus,
, HHV7, pseudora~~

30. The method of claim 29 wherein the herpesviridae virus is selected from the group of viruses consisting of herpes simplex viruses, cytomegalovirus, herpes varicellazoster, Epstein-Barr, HHV6, HHV7, pseudorabies, and rhinotracheitis.

Abstract
